H.R.1- The “For The People Act of 2021”

The Democrat’s Frontal Assault On Free and Fair Elections. In a highly unprecedented move, H.R. 1, Congress’s highest priority bill, went directly from printing to the floor of Congress for a vote with no other committee review except the Rules Committee. *It was not sent to any other committees, leaving no chance for any review or amendments.* Nancy Pelosi and Chuck Schumer simply do not care about any bi-partisan input or even any input from their own party members on this. Pelosi knows she is likely to be out of power in 2022, and so are the Democrats unless they can lock in permanent power by implementing biased and unfair election rules before then. This would ensure a one-party rule, making elections irrelevant in the future because the Democrats would have overwhelming majorities.

This bill takes all the worst features of California elections and nationalizes them.

- It removes all constitutional powers from every state legislature to determine how they run their own elections.
- It eliminates each state’s rights to regulate voter registration.
- It forces the implementation of early voting.
- It calls for automatic voter registration for all “people” (there is no “citizenship” requirement).
- It allows same-day voting registration with no I.D. required.
- It promotes online registration and no-fault absentee balloting.
- It calls for 30 days of voting and would mandate acceptance of ballots up to 3 days after the election without requiring proof of when those ballots were cast.
- Voter I.D. requirements, which 35 states have now, would be banned.
- *States will lose most of their ability to clean up voter rolls.* In fact, it would make it a criminal offense for a state official to reject a voter registration even under “color of law” when that official has reason to believe the registration should be rejected.
- H.R. 1 forces states to allow 16 and 17-years olds to register to vote but does not provide any way for states to keep underage people from voting.
- It requires each state to allow felons to vote even before they have completed their parole or restitution terms.
- Ballot harvesting will be allowed in every state, regardless of what the state legislature says.

- **Implement taxpayer-funded federal campaign donations – the government will use taxpayer dollars to match at \$6.00 for every \$1.00 donated.**
- **This bill will reduce the number of Federal Election Commission members from its current 6 (3 Republicans and 3 Democrats) to 5, allowing the party in power to control election authority.**
- **It takes away a state legislature’s authority to draw congressional districts and gives it to an “independent” commission who would be unaccountable to voters.**
- **It would mandate the inclusion of all aliens regardless of citizenship status in all redistricting counts.**
- **It would empower the IRS to consider and investigate the political and policy positions of nonprofits organizations before granting tax-exempt status.**
- **It would prohibit any lawsuits challenging the constitutionality of H.R. 1 anywhere except in the District Court for the District of Columbia and would severely limit the legal representation and due process rights of challengers.**

Constitution 101: The Meaning and History of the Constitution

The Constitution established a limited government, but a government with sufficient powers to protect Americans' God-given rights to "Life, Liberty, and the pursuit of Happiness." This course examines the design and purpose of the Constitution, the challenges it faced during the Civil War, how it has been undermined for over a century by progressivism and post-1960s liberalism, and how limited government under the Constitution might be revived.
