## California Federation of Republican Women

### Distinguished Speaker Series

**Monday, April 26, 2021**  
**6:30 pm - 7:30 pm via Zoom**  
**Tickets are \$10 each.**

The third speaker in the CFRW Distinguished Speaker Series will be  
***Dr. John Eastman.***

***Senior Fellow at the Claremont Institute.***  
***Served as a law clerk to the Honorable Clarence Thomas.***  
***Chairman of the Federalist Society's Federalism &***  
***Separation of Powers practice group.***

Dr. Eastman will be giving us an *insiders view of the election* (i.e., his representation of President Trump, the illegal conduct by election officials, the meeting in the oval office with Trump and VP Pence, and his speech on the Mall on Jan. 6). He also plans to address *Election Integrity* efforts going forward, as well as the *Cancel Culture* and the threat to our freedoms.

Be sure to set aside this time on your calendar and register for this event before April 25 by clicking the [RED](#) button below.

Tickets are \$10 each.

## ***A Little About Dr. John Eastman***

Dr. John Eastman is a Senior Fellow at the Claremont Institute and founding Director of the Institute's Center for Constitutional Jurisprudence, a public interest law firm. He was a member of the law faculty at the Chapman University Fowler School of Law from 1999 to January 2021, specializing in Constitutional Law, Legal History and Property. He was the Henry Salvatori Professor of Law & Community Service and served as the School's Dean from 2007 to 2010.

He has a Ph.D. in Government from the Claremont Graduate School and a J.D. from the University of Chicago Law School, and a B.A. in Politics and Economics from the University of Dallas.

He serves as Chairman of the Federalist Society's Federalism & Separation of Powers practice group and is a member of the board of directors of the Public Interest Legal Foundation and The Claremont Institute.

Prior to joining the Chapman law faculty, Dr. Eastman served as a law clerk to the Honorable Clarence Thomas, Associate Justice, Supreme Court of the United States, and to the Honorable J. Michael Luttig, Judge, United States Court of Appeals for the Fourth Circuit and practiced law with the national law firm of Kirkland & Ellis.

Dr. Eastman has also represented numerous clients in important constitutional law matters and has argued before the Supreme Court. On behalf of the Claremont Institute Center for Constitutional Jurisprudence, he has participated as amicus curiae before the

**Supreme Court of the United States, U.S. Courts of Appeals, and State Supreme Courts  
in more than two hundred cases of constitutional significance.**

**He has provided expert testimony to numerous committees in Congress and  
in State legislatures, and has appeared as an expert legal commentator  
on numerous television and radio programs and networks, including C-SPAN, NPR,  
Fox News, PBS, NewsHour, and The Ingraham Angle.**

## MALIBU

### Malibu Colony

Malibu Colony was one of the first areas with private homes after Malibu was opened to development in 1926. As one of Malibu's most famous districts, it is located south of Malibu Road and the Pacific Coast Highway, west of Malibu Lagoon State Beach, and east of Malibu Bluffs Park (formerly a state park).

[May Rindge](#) had protected the Malibu coast with only a few wealthy Hollywood stars having vacation homes there. Rindge opened up this small area for development in 1926. The long legal battle to protect her beloved Malibu coast had been costly and she eventually died penniless. Long known as a popular private enclave for wealthy celebrities, the Malibu Colony today is a [gated community](#), with multimillion-dollar homes on small lots. The Colony has views of the Pacific Ocean, with coastline views stretching from [Santa Monica](#) to [Rancho Palos Verdes](#) to the south (known locally as the *Queen's Necklace*) and the bluffs of [Point Dume](#) to the north.

### High technology in Malibu

The first working model of a [laser](#) was demonstrated by [Theodore Maiman](#) in 1960 in Malibu at the [Hughes Research Laborator](#) (now known as HRL Laboratories LLC). In the 1990s HRL Laboratories developed the FastScat computer code, for frequency domain algorithms and implementation, recognized as perhaps the most accurate code in the world for radar cross-section calculations. [TRW](#) built a laboratory in Solstice Canyon without any structural steel to test magnetic detectors for satellites and medical devices.
